

Winchester Garden Supply

2010 Catalog

Winchester Garden Supply

Winchester Garden Supply LLC has been providing seeds to home gardeners since 2004 as an online retailer, and this past year has been our most successful season yet. For the 2010 season, we are introducing many new products. For photos and more information about any of the products listed in our catalog, please see our website at www.winchestergarden.com

We specialize in open-pollinated seeds, including many heirloom varieties for your vegetable and herb garden. Today, it is difficult to find flavorful produce at your local supermarket. Farmers markets offer a better option to ensure that your produce is fresh, but there is no comparison to the intense flavor and value you get by picking vegetables directly from your own garden.

Growing a vegetable plot is coming back into style with ever-rising food and fuel costs. With many food-borne illnesses making headlines and a greater demand for

organic produce, it is nice to know for certain what went into growing your vegetables and how they were handled.

Winchester Garden Supply LLC also offers an extensive selection of wildflowers, naturalized flowers and herbs. We invite our customers, new and returning, to peruse our catalog for ideas for your garden. Germination instructions are available online at www.germination.us for each type of seed that we sell.

We accept orders by fax, mail, phone or online (please do not send any credit card information by email). Our telephone operators are available from 6am to 6pm Eastern Time, Monday through Saturday to take your order. If you have technical gardening questions, or to inquire about your order, please contact us at: customerservice@winchestergarden.com

Return Policy

Any claims of damage, shortage or error must be made in writing by fax or email within 30 calendar days of receipt of merchandise. Any seeds returned for credit or exchange must have prior written approval from Winchester Garden Supply LLC. Credits will be issued after merchandise has been received by our warehouse. All claims not made in writing and received by Winchester Garden Supply LLC within the time period specified above shall be deemed waived.

Legal Disclaimers

While our product selection continues to expand, we do discontinue some items from time to time based on availability or demand. In the event an item has been discontinued, we will substitute a similar item, if available. Items temporarily out of stock will be back-ordered and shipped once they are in stock. Prices are subject to change.

Winchester Garden Supply LLC guarantees that the seeds we sell conform to the label description, as required by State and Federal seed laws. We make no representations or warranties of any kind, express or implied, with respect to the contents hereof, merchantability, fitness for a particular purpose or any other matter. All of the seeds sold by Winchester Garden Supply LLC are untreated and, unless otherwise noted, all varieties are open-pollinated and non-hybridized. We do not knowingly purchase any GMO seeds.

The liability of Winchester Garden Supply LLC for breach of warranty, or any loss or damages arising out of the purchase or use of our products, including loss or damages resulting from any negligence whatsoever on our part, or strict liability in tort, shall be limited to the purchase price. By acceptance of the merchandise, the buyer acknowledges that the limitations and disclaimers herein described are conditions of sale, and that they constitute the entire agreement between the parties regarding any warranty or liability.

Under the seed laws of several states, arbitration, mediation or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed to which this notice is attached to produce as represented. The consumer shall file a complaint (sworn for AR, FL, IN, MS, SC, TX, WA; signed only for CA, GA, ID, ND, SD) along with the required filing fee (where applicable) with the missioner/Director/Secretary of Agriculture, Seed Commissioner, or Chief Agricultural Officer within such time as to permit inspection of the crops, plants or trees by the designated agency and the seedsman from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail, or as otherwise provided by state statute.

Herbs

Dried herbs are convenient, but they do not compare to the flavorful enhancement that fresh herbs add to a home cooked meal -- you won't find chefs on cooking shows using anything but the freshest herbs! Most herbs can be picked all season long and will continue to produce foliage until the first frost.

Some of the easier herb varieties to grow include mint, oregano, basil, sage and cilantro. Even if you don't grow herbs for their culinary uses, many are popular with bees and butterflies once they begin flowering. Borage, dill, mint and catnip all produce abundant flowers that are attractive to wildlife.

Kind	Variety	Catalog Number	PACKET SIZES

Naturalized & Wildflowers

A good local nursery will typically offer an excellent array of flowers for the home garden, many of which are the latest hybrids. However, for the ultimate selection of options, a gardener needs to start from seed, especially when looking to grow wildflowers. Some of the more popular options like coneflowers and daisies can be found as plants locally, but when was the last time you saw moonflowers or passionflowers at your local nursery or garden center? To have a landscape that sets your garden apart and expresses your individuality requires growing some of the many beautiful varieties available from seed.

Sprouts

& Greens

Increasingly grown for their health benefits, sprouts can be served on sandwiches or juiced to extract their nutrients. Specialty salad greens add a different flavor dimension to a salad.

Kind	Variety	Catalog Number	PACKET SIZES						
			1/16 ounce	1/8 ounce	1/4 ounce	1/2 ounce	1 ounce	4 ounces	8 ounces

Wheat	Hard Red Spring	SD0001					\$1.50	\$2.50	

Vegetables

Have you ever seen fresh peas at the supermarket? They are rare because they begin losing their flavor from the moment they are picked. Grow those same peas in your garden and you can have the freshest peas you have ever tasted. Even produce such as tomatoes, which are found in every supermarket, will taste much better from your own garden. Grow a little more than you need and give some away to your friends and relatives to enhance your popularity.
